

LE SALON by Tomas Sierra

Rêve de Beauté... "a space dedicate to dream the Beauty"

Paseig de Gracia, 63 y Concell de Cent, 261 / BARCELONA - SPAIN

www.lesalon.es - info@lesalon.es

One of the most prestigious and glamorous Salon in Barcelona, launch his first collection of brushes, designed jointly by his stylist "Tomas Sierra" and "Ramon Regincós".

Philip B. told us that in one of his trips to Barcelona had visited a great Salon, with very high quality products and technically well-trained professionals, which also begin working with their organic shampoos soon.

We take care about and contacted "Mourad Sehili", then partner and creative director of LeSalon, and in September of 2011, slowly but surely, we were specifying the most basic details but with less complicated technical solutions, in order to create a collection of high quality brushes for "Le Salon".

Natural hardwoods darkened and treated with natural waxes, combined with first class bristles, specially designed for "LeSalon" which combines black boar with blonde bristles, getting a very interesting "gray" color, very attractive also with great qualities for brushing and blow-dry process.

"LeSalon" round brushes are presented in to a DeLuxe box in hexagonal shape. Each brush is also placed in to a small "velvet bag" with includes a "Hairbrush Cleaner". Available in three different sizes to accommodate any length of hair, will go on sale to the public in late August.

This round brush collection will be soon complemented by other styles in "Oval rubber pads" in two sizes: a large one for toiletries and a small one for bag & travel, both in two different bristles: one in 100% natural boar bristles and another in "poucupine" (bristles + nylon), also available for hair extensions.
